The Net Zero Industry Act (NZIA):

- Entered into force in June 2024
- Regulatory framework to boost the competitiveness of EU clean technologies crucial for decarbonisation.
- Objective: scale up the manufacturing of clean technologies in the EU
- **Solar thermal technology clearly listed in scope**; a sector meeting already 90% of the EU demand, exporting worldwide and ready to grow
- NZIA will include streamlined permitting, net zero priority projects, privileged access to EU products eg via public procurement, measures for SMEs, start ups, skills etc.

By 2030, solar heat in Europe aims to provide:
